

## Checklist For The Available Equipment

<https://www.grzaudio.com/downloads-en/>

- What PA system will be set up? Is it an active or a passive system? Does the system have subwoofers or not?
- Is the PA system adequately dimensioned?
- Can the top speakers be placed separately from the subwoofers?
- Are there enough monitor speakers?
- Will additional speakers be necessary?
- Are there enough XLR cables?
- Are there enough speaker cables (passive system)?
- Are there enough microphone stands available?
- Are there enough microphones? Which microphones are available?
- Are there enough DI boxes?
- Which mixing console is used? Can you bring your own mixing console?
- Where is the mixing console positioned?
- Are there enough power distributors and IEC cables/power cords?
- Are there any absorbing materials like Molton curtain around the stage?
- Are there any devices, such as speaker management systems or anything similar, patched between the mixer and the PA system.
- When the PA system will be set up?
